The services provided by the Migrant Resource Center (MRC) to returnees from abroad are comprehensive and aim to support their reintegration into the workforce and society. A breakdown of the services is provided below:

Database Registration:

The MRC registers returnees in their database upon receiving an official referral from the Ministry of Migration and Displaced (MoMD). This registration is likely used for tracking and providing support to returnees.

Communication Groups:

The MRC creates communication groups for returnees through platforms, for instance, Telegram. These groups facilitate communication and information-sharing among returnees, which can be valuable for networking and mutual support.

Job Seeker Registration:

Returnees are directed to register themselves in the database of job seekers at the Ministry of Labour and Social Affairs (MoLSA). This step is crucial for those seeking employment opportunities.

Referral Form:

The MRC assists returnees in filling out referral forms. These forms likely contain information about the returnees' skills, experiences, and job preferences, which can help match them with suitable opportunities.

Business Innovation Course:

The MRC collaborates with MoLSA's Labour and Vocational Training Department to provide a business innovation course. This course commonly covers topics related to entrepreneurship and how to establish and run a business. It can empower returnees to explore entrepreneurial opportunities.

Loan Procedures:

After completing the required sessions and courses, returnees are referred to MoLSA's Small Business Support Section to initiate the procedures for obtaining a loan. This support can be instrumental in helping returnees start or expand businesses or cover other financial needs.

Ongoing Communication:

The MRC maintains continued communication with returnees to address their questions and inquiries. This ongoing support ensures that returnees have access to assistance whenever they need it.

Psychological Support and CV Preparation:

Returnees receive psychological support sessions and guidance on how to prepare a professional CV (Curriculum Vitae) from MRC counsellors. This support is valuable for addressing any emotional or psychological challenges and for creating strong job applications.

Overall, these services demonstrate a comprehensive approach to helping returnees reintegrate into their home country's workforce and society. They encompass psychological support, skills development, employment assistance, entrepreneurship training, and financial support, reflecting a commitment to the well-being and success of returnees from abroad.
